MANUFACTURING QUESTIONNAIRE

Name of Agent:	
Applicant:	
Operation:	
Form of raw material:	
Finished product(s):	
Detailed description of manufacturing process:	
To be completed for each location.	
Is process automated, computer operated or manual?	
Sprinklered?	Yes No
Type:	
Dust Collection system?	Yes No
Type:	
Storage of dust at least 50 feet away from buildings?	
Is dust used for fuel?	Yes No
Any dry kilns on premises?	Yes No
If yes, how many?	
Ventilation system?	Yes No
Type:	
Condition of overall housekeeping:	
Night clean up crew?	Yes No
Is there 24-hour security?	Yes No
Premises fenced?	Yes No
How is raw material moved to production area? Conveyors Auger Overhead C	Cranes
Is electrical equipment and wiring explosion proof?	Yes No

All process equipment grounded and bonded?		☐ No
Does equipment have automatic shut-off?	Yes	☐ No
What is the age of the processing equipment?		
What is the inspection and servicing schedule for all equipment (including converyors, hydraulic lines, e	etc.)?	
How often is the electrical equipment and wiring inspected and serviced by a licensed professional?		
Are you in compliance with NFPA 70 on eletrical codes?		□No
Are you in compliance with NFPA 77 on static electricity?	Yes	☐ No
Does production machinery have dust tight seals and explosion venting?	Yes	☐ No
Is smoking allowed on premises? If yes, describe designated premises:	· 	☐ No
Storage of Raw Material: What form is raw material stored in? Is storage of raw material separated from production and finished product?	Yes	
Storage of Chemicals, Flammables or Solvents, etc.: Is storage separated from all other operations? If yes, by: Firewalls Separate Building Other: What other chemicals, flammables or solvents are used (include trade names.)?		
Quanity of each? Container type, size and number of gallons? Are Material Data Safety Sheets on file and available? Describe any cadmium, magnesium, zirconium or titanium: Are all 55 gallon drums storing chemicals properly grounded? Is only a single day's supply stored on the premises?	Yes	□No
If no, how much? Is storage area properly ventilated? If no, what kind of ventilating is used? Are you in compliance with NFPA 30 standards?	Yes	☐ No
Storage of Finished Product:		
Is storage of finished products separated from the production area?		
Do you have trained in house fire brigade?	Yes	□ No

Do you have your own water source on site? ☐ Yes If yes, describe:	No
Do you have your own firefighting equipment on site? ☐ Yes If yes, describe:	□No
Are there grinding or finishing operations?	☐ No ☐ No
Are there painting or laminating operations?	☐ No ☐ No
Are there welding operations?	NoNoNoNoNoNoNoNo
